Introduction	This workshop will teach you the background of our Indigenous native food plants, how to identify species, as well as how to grow, care for, propagate and harvest native edibles. You'll also learn how to use local species in your cooking or for medicinal use at home. Includes: course notes and taste testing.				

<p>Presentation Abstract: max. 300 words</p>	<p>I will bring native edible food plants with me, I will teach how to grow, harvest and use native food plants in your cooking. I will include information about soil types, aspect, pot growing and maintenance.</p> <p>I will have food samples of some of the plants for people to try and many fragrant and harvested samples of native edible food plants.</p>
<p>Key Message: A short summary of presentation</p>	<p>Grow native edibles, learn how to harvest from them and cook them in your kitchen.</p>

All abstracts must be received by 5pm **Friday 28 April 2023 (AEST)**.
We expect to notify speakers by mid June

Note: confirmed presenters will be required to register for the conference and pay the relevant registration fees.
